# INAPI©

**INCREASE YOUR INSTRUMENTATION PRODUCTIVITY**

# INAPI©

## A WiseTools Productivity Tool

## What is INAPI©?

**INAPI** enables integration and viewing of your instrumentation and P&ID date and deliverables using INView, INP&ID, INAuditPro. Provides an interface for third party software such as SAP, Maximo, AIM to your instrumentation and P&ID data and deliverables.

## Features and Benefits

- Improves collaboration and internal communication within the plant as INAPI's core functionality is integration, making connectivity between applications like WiseTools applications, asset management systems, SPI instrumentation data and external document systems fast and easy.

- Saves time by enabling the user to view instrument tag data from unrelated applications.  No need to go between two or three disparate systems to get required information.

- URL commands can be embedded in Maximo, AIM or SAP enabling the user to view SPI tag data such as tag properties, datasheets or loop drawings in INView and P&ID drawings in INP&ID.

- Built in URL switches specify which data, such as instrument tag properties, datasheets, panel/strip properties, line properties, loop properties, loop drawings, P&ID drawings and related documents, to open/view.

- Web application – uses Microsoft Edge or Google Chrome browsers.

- Designed to function on a desktop or a tablet.

- User friendly – intuitive and easy to use.

- No passwords required.

- Easy to implement and configure.

- Compatible with:
  - ✓ SPI 2016, 2018 and 2019
    - Engineering and Owner Operated / As-Built configurations.
    - Oracle or SQL
    - Server 2016, 2018 +.
